Written consent

For the technical examination, the examiner will ride on the backseat of the water scooter. But in emergency case, the examiner only conduct a "kill switch"(turning off the switch to immediately stop the engine.) to secure safety is possible. The examiner can't operate the handle and an accelerator to avoid danger. So if you may accept the following <Point to be checked> and <Observance matter>, place your signature and seal. The technical examination will be given only to those who have submitted the "Written consent."

<Point to be checked>

When the accident of injury, and death and others etc. should occur during an examination, in case the cause of the accident is an examinee's operation or negligence, the examination organization does not take any responsibility.

<Observance matter>

1. Follow the indication of examiner.
2. Won't do to try to overreach yourself.
3. In the examination, always pay attention to safety and behave yourself with a quiet attitude.

I agree to the above-mentioned matter and take a Personal Water Craft examination.
